

DELTA LED STREET LIGHT

Excellent Heat Dissipation

The specially designed heat sink does not let dust easily collect, while also allowing more air to flow through it, providing for greater heat dissipation and, in turn, improving the performance of a long-lasting, durable luminaire.

Driver

High Quality Driver

A combination of clever design and high-quality core electrical components, this specially designed driver creates roadway luminaires with long lifetimes and reduces the need for maintenance.

IP65

High Durability

A robust, protective design gives this luminaire an IP of 65 and the ability to handle harsh environments.

Energy Saving

The combination of high-efficacy LED components with excellent whole system design has SONARAY LED lighting achieving energy savings of 40% - 80% compared with traditional lighting sources.

Quality Core Component

Excellent luminaire design to the core: starting with the LED packages themselves. These luminaires only use high quality COB packages from CITILED – chipsets that have great quality and long life as backed by LM-80 and TM-21 reports. Quality inside the luminaires that shines from the outside.

Complies with USA Certification

Approved by Authoritative laboratory for UL (USA and Canada).
